

PLANT ONE GIVE ONE

> OPPORTUNITY

Engage your employees in the joy of planting and watching trees grow – beautifying your neighborhood and community. Our "Plant One Give One" program allows companies to provide free trees for their employees while also helping us provide more trees for children in our program.

- 1 tree for an employee = 1 tree for a child in Neighborhood Forest's Program.
- It costs us \$10 per tree (\$5 for the tree going to the child and \$5 for the tree going to your employee).
- We typically ask for a minimum \$5,000 investment, which allows for up to 500 trees to go to your employees. Any trees not claimed by employees will go to children in our program.
- Includes complimentary lunch and learn keynote session about the impact of urban trees on human well-being, health, economic growth, and environmental sustainability.
